

WOMAN IS ARRESTED AS BOOTLEG QUEEN

Asserted Mrs. Cumo Is One
of Heads of Long Island
Liquor Ring.

HUSBAND ALSO HELD

Wife Is Taken When She
Appears to Furnish
Bail for Him.

DEATH THREAT IS MADE

Proprietor of Liederkrantz Hall
Warned Not to Give Evi-
dence to Authorities.

The "Queen of the Bootleggers," who has been one of the leaders of the gang which has been running whiskey up and down the Long Island shore in automobiles, was identified yesterday by acting United States Attorney Wallace E. J. Collins as Mrs. Mary Cumo of 60 President street, Brooklyn. She was placed under arrest at Mr. Collins' orders when she appeared at the Federal Building in Brooklyn to furnish bail for her husband, Alexander Cumo, who was one of six men arrested last Sunday. At the same time that Mrs. Cumo was locked up the revenue agents also arrested Robert N. Lanier, owner of the Liederkrantz Hall in Huntington, L. I.

The revenue agents said since the arrests of Cumo and the others last Sunday Lanier had received several letters, believed to have been from friends of the prisoners, warning him that he would be killed if he talked to the authorities about the operations of the bootlegging gang. Lanier turned the letters over to the authorities and the supposed authors of them are being traced, with the probability of further arrests in this connection. Lanier, it was said, had admitted that the 157 bottles of whiskey seized Sunday were consigned to him. Both he and Mrs. Cumo were arraigned before United States Commissioner Raquin and held in \$1,000 bail each.

Was Allowed to Go.

Mrs. Cumo was in the automobile with her husband and the other men when the arrests were made last Sunday, the authorities say, but at that time her connection with Cumo's alleged schemes was not clear and she was allowed to go after she had protested vigorously against being arrested. The information received by the government authorities is that Mrs. Cumo acts as the lieutenant of her husband in arranging plans for disposal of liquor and that she was also the cashier of the group, taking care of all receipts and making all disbursements, with all purchasing arrangements being made through her. When she was arraigned yesterday, charged with illegal transportation of whiskey, she denied the charge and declared that her arrest was an outrage.

Injunction Denied.

In the Supreme Court in The Bronx yesterday Justice Martin denied an application by Christian Eicher for a permanent injunction restraining Police Commissioner Enright, Inspector Dominick Henry of the Sixth district and Police Captain Miller of the Forty-sixth precinct from placing policemen in his restaurant and soft drink establishment at the southwest corner of 163d street and Third avenue. Justice Martin's action followed the granting of a temporary injunction and order to show cause by Justice Mitchell in the Supreme Court, Bronx county, July 29.

"It appears from the affidavits," said Justice Martin, "that the police have made six arrests in the restaurant, so-called, and although the plaintiff has succeeded in dismissing these proceedings, it is quite evident, as alleged, that the plaintiff is conducting his business in violation of the law."

Leroy Coe and his brother, Charles, were held in \$1,000 bail each on charges of extortion by Judge Boettner in the First Criminal Court at Newark, N. J. The brothers collected evidence for the Federal authorities in preparation of the cases against Edmund J. Le Breque, proprietor of warehouses, and Oscar Friedrich, Jr., accused of conspiracy to withdraw liquor illegally from bonded warehouses, and their trial was set for next month. The brothers were arrested after, it was alleged, they promised to "disappear" when the case was called on the payment of money.

PROBE BEGUN TO TRACE PATH OF SEIZED RUM

Daugherty Wonders What
Becomes of All of It.

WASHINGTON, Aug. 16.—Attorney General Daugherty has started an investigation to find what became of liquor seized by Government officials. In reviewing many prohibition cases, Mr. Daugherty said today, he had begun to wonder what became of the vast quantities of alcoholic beverages seized by the Government.

Mr. Daugherty said he did not know how much liquor was stored by the Government in different places, though it had been reported there were supplies valued at between \$5,000,000 and \$6,000,000 at non-beverage prices in New York city alone.

THREE CAUGHT WITH DRUG CUSTOMER LIST

Detectives Arrest One With
88 Names of Buyers.

On one of three prisoners arrested yesterday on drug selling charges, detectives of Dr. Carleton Simon's narcotic squad allege they found a "list of customers" containing eighty-eight names, with addresses in Manhattan, The Bronx, New Jersey and Yonkers. The prisoners, described as Ernest Brascia, 21, 301 East 104th street; John Marino, 24, 218 East 114th street; and Carmine Canzio, 2163 Second avenue, were taken at 136th street and Amsterdam avenue as they alighted from an automobile.

One of them, it is charged, threw away a canvas bag, which the police found contained twenty bottles of heroin and ten bottles of cocaine. A bottle of cocaine is said to have been found in a pocket of one of the men.

FIVE WOUNDED DOUGHBOYS 'SITTIN' ON TOP OF WORLD'

Are Only Patients in Government's New \$10,000,000
Hospital—Three Majors, Two Nurses and
Two Orderlies Wait Upon Them.

CHICAGO, Aug. 16.—With two miles of spotless white corridors, one thousand beds and all the equipment of a new hospital at their disposal, five wounded doughboys are "sittin' on top of the world" at Speedway Hospital, the Government's new \$10,000,000 structure at Maywood, a suburb.

The hospital was opened a week ago, and so far has received only the five patients.

"It's pretty hard in some ways—only

us five guys in the place," said Sergeant Harlow B. Garthwaite, late of C Company, Sixth Field Signal Battalion. "We've three Majors, two nurses and two orderlies waiting over us. They're killing us with kindness. Why we've got one Major detailed exclusively at swatting mosquitoes."

The hospital, according to Major Mark J. White, who is in charge, will handle only convalescent cases, as it has no operating rooms or elevators. The structure is four stories high and one half mile in length. It was a gift to the Federal Government.

CANADA ATTEMPTS TO PLUG RUM LEAK

New Test Case on Liquor Ship-
ments to United States
Being Prepared.

DETROIT, Aug. 16.—State policemen today continued their efforts to halt the flow of liquor from Ontario into Michigan, as Canadian officials took a definite step in an attempt to plug the leak in the border. Acting on orders of N. M. Mossau, Windsor License Inspector, provincial authorities began to prepare a new test case on rum shipments, following the seizure yesterday of liquor in Windsor.

Word from Toronto was to the effect that W. E. Raney, Attorney-General for Ontario, was not satisfied with a recent Windsor court ruling that provincial authorities could not interfere with shipments of liquor from the province into outside territory. Windsor police said today they had not, as yet received orders from Attorney-General Raney to stop all shipments of liquor by any other mode of conveyance than a common carrier. Toronto despatches declared the Attorney-General had made such an order.

Michigan State troopers were watching for a carload of Canadian rye whiskey reported to have reached Windsor from Eastern Canada for shipment into the United States across Detroit River. The trace of the reported shipment had been found on this side of the river today.

State officers early today made numerous raids in Detroit's suburbs, seizing beer and whiskey and placing several men under arrest. They began a check of reports that a large part of the liquor reported as being brought across the river was finding its way to Toledo and other cities by automobile over the Dixie highway. It was announced today that automobiles were to be stopped and searched along the highway.

Windsor breweries yesterday reported the largest demand for their product in some time, and that the brewers were contemplating enlargement of their output.

Windsor, Ont., Aug. 16.—The first interference with the export of beer to the United States by Ontario enforcement officers was made Monday night. It was learned today, when a shipment from the Windsor docks was seized in transit.

The seizure was made upon orders from the Attorney-General's department at Toronto. The Attorney-General recently announced his intention of seizing all shipments leaving Canadian shores by any other mode of conveyance than a public carrier.

SEEKING OCEAN LINERS AS LIQUOR SMUGGLERS

Government Devotes Effort
to Getting Big Violators.

Special Dispatch to THE NEW YORK HERALD.

ATLANTIC CITY, N. J., Aug. 16.—Capt. Joseph H. Roy, master of the schooner Pocumot, libelled as a rum smuggler, was arrested to-night by Deputy Marshal Osowski by order of Assistant United States Attorney Pearce and lodged in jail in default of \$5,000 bail asked by United States Commissioner Steinman. Capt. Roy is charged with smuggling. His status has been in doubt ever since the Pocumot was seized after Capt. Roy came to port with a story of having cast into the waves during a storm 1,000 cases of liquor off Cape May. The liquor, he claimed, was en route to Quebec from the Bahamas.

Nicholas C. Brooks, a special agent of the Treasury Department, declared today that the Government was more interested in catching big smugglers than in small fry, such as the Pocumot. Ocean liners as well as fishing schooners had been used in the rum smuggling traffic, he said, and the traffic was going on all the way from Long Island Sound to the Florida keys.

PAWNBROKER SEES KENNEDY SUSPECT

Man Who Identified Alleged
Murder Gun Confronts
Burch in Jail.

LOS ANGELES, Aug. 16.—E. A. Rosenthal, pawnshop proprietor, who yesterday identified to the satisfaction of the authorities, a shotgun stock found on the beach near Santa Monica shortly after the killing of J. B. Kennedy, as part of a gun he had sold to a customer entering his shop late in July, today was given an opportunity to see and talk with Arthur C. Burch, indicted for murder.

Rosenthal was taken to the office of Deputy District Attorney Asa Kayas, and there, it is understood, he looked at the young man.

After the meeting Rosenthal said he had been told not to give out interviews. Attorneys for the prosecution announced to-night that they would extend their investigation to Chicago and other cities in an effort to obtain further evidence. Mrs. Madalynne Obenchain, who was indicted with her divorced husband, who is now at her side aiding in her defense.

The prosecution said that efforts would be made to learn something of the earlier life of Mrs. Obenchain, Burch and Kennedy. The first two named and Obenchain were classmates at Northwestern University, Evanston, Ill. Rosenthal learned today that his resignation as counsel for a Chicago firm had been accepted. Messages received here indicated that he had been dismissed, but he said that he had tendered his resignation before leaving Chicago when he was informed that his coming to Los Angeles would result in a request for the resignation.

"It was unfair to announce that I had been discharged," he said. "It is simply another load to the burden I must carry, and I will bear it with a smile—for Madalynne's sake."

WOMEN IDENTIFY MAN IN PRIEST MURDER CASE

Declare He Called on Day
Father Heslin Disappeared.

SAN FRANCISCO, Aug. 16.—William A. Hightower, held in connection with the murder of the Rev. Patrick E. Heslin, was identified late today by Miss Marie Wendel as the man who called for the priest on August 2, the night he disappeared. Miss Wendel, the priest's housekeeper, her identification was substantiated by Mrs. Blanch, a neighbor, who also was positive in her statements.

The identification came after the two women had scrutinized the prisoner for fifteen minutes in the office of District Attorney Franklin Swart in Redwood City. Hightower's only comment to the officers during the scrutiny was "I got the idea."

NURSE REELS AS SHE HEARS MURDER CHARGE

Olivia M. P. Stone Struggles
to Maintain Calm.

Olivia M. P. Stone shut her eyes and reeled in the County Court before Judge May in Brooklyn yesterday when informed that she had been indicted for murder in the first degree for shooting Ellis Guy Kinkadee, the lawyer, near his home at 45 South Elliott place, Brooklyn. The nurse grasped the rail tightly with both hands, bit her lips and struggled to maintain an air of calm. A technical plea of not guilty was entered in her behalf.

David Price of counsel stated that Miss Stone had told him she was without funds and was desirous of having his firm, Price & Kesselman, which has been appearing for her in date, defend her at the trial. Miss Stone was then assisted back to the "pen." The date of trial has not yet been fixed.

ERIE SHOPMEN SEEK LABOR BOARD'S AID

Union Requests Definition
of Status of Men Refusing
to Accept Conditions.

PRINCIPLES AT STAKE

Life of Organized Labor on
Railroads Involved in Ma-
rion Case, Say Officials.

NEW WORKERS ENGAGED

Ten Hour Day and No Sunday
Overtime Schedule Resumed
by Company.

MARION, Ohio, Aug. 16.—Request for definition of the status of former employees at the Erie Railroad shops here who have not accepted employment with the Railway Service Company, which yesterday took over operation of the shops, was made to the Railroad Labor Board today by the local shop crafts unions.

The request was made in a letter mailed to E. M. Jewell, head of the railway employees' department of the American Federation of Labor, for presentation to the board in Chicago which outlined the situation in the local shops. The men who would be affected by the ruling are those who, according to Erie officials, walked out when the ten hour day was resumed and Sunday overtime pay refused, and who, according to the unions, were "sent home" by the company for refusal to comply with the new orders of the railroad.

The union officials say that five hundred of these men have refused to accept employment with the Railway Service Company. Officials of the new company have so far refused to issue a statement on the number of former Erie employees who have accepted positions with them. The number of employees at the shops last Saturday before the new company took over operation was said today to have been between 500 and 600.

A statement issued by the union officials said that the present situation was "a life and death struggle in which the principle of unionism, not only in Marion, but everywhere shop employees are organized, is menaced."

"We will not strike," the statement continued, "nor is there any danger of an extended strike over the entire system until the decision of the Labor Board is received."

Telegrams from shop craft unions all over the country offering support to the local unions in any step they deem necessary have been received by local union officials, they announced.

T. A. Clawson, president of the local machinists' union, announced today that since trouble arose more than a week ago about 150 men had been brought to Marion to work in the shops. They had been persuaded to leave, however, by peaceful means, he said, and there would be no violence on the part of the union men.

Guards who took up positions around the shop buildings and roundhouse last night continued patrolling today, while additional members of the Erie's police force have arrived in Marion.

YOUNGSTOWN, Ohio, Aug. 16.—Roundhouse employees at Kent who would not obey Erie Railroad rules as to physical examinations and Sunday work without overtime pay have been dismissed and their places filled with new men, it was announced at Erie regional headquarters.

MAY APPEAL TO HARDING.

Packers' Employees to Seek Arbitrator If Agreement Fails.

OMAHA, Aug. 16.—An appeal to President Harding to appoint an arbitrator to help adjust differences between packers and their employees will be made if a plan for a national working agreement being drafted here by officials and delegates of the Amalgamated Meat Cutters and Butcher Workmen is not acceptable to the packers. C. J. Hayes, the union's international president, said today.

FOR WOOD PULP PARLEY.

WASHINGTON, Aug. 16.—President Harding attached his signature today to the Underwood resolution authorizing commission negotiations with Canada over importation of wool pulp for printing paper. The American commissioners will be named later.

BIG CAR REPAIR PLANT FOR ROADS SUGGESTED

Erie's Leasing of Shops Brings
Forth New Plan.

Although it is not indicated that other eastern lines are considering the plan of following the lead of the Erie Railroad in leasing its repair shops for operation by private corporations, the suggestion was made in one quarter that a pooling of equipment repair facilities to obtain greater economy and efficiency in operation in the shops was a possibility that might be proposed if the roads fail to obtain satisfactory settlement of pending labor disputes, particularly on working rules, with the shop crafts.

Owing to the large number of freight cars in bad order, currently reported at 265,000, and the possibility of a car shortage if there should be a sudden upturn in traffic, railroad executives admit that the necessity of resuming repairs of rolling stock is one of their most pressing problems. This work was largely postponed in the hope of establishing by July 1 adequate working rules covering the shop crafts and eliminating punitive overtime pay and other rules considered burdensome by the carriers.

There is now said to be small prospect of obtaining a decision from the labor board on the rules dispute before September 1.

At the local offices of the Chicago, Rock Island and Pacific in Chicago, it was said nothing had been heard of the report that the road's Silvis, Ill., repair shops would be turned over to the Baldwin Locomotive Company.

SENATE ACTS TO LET WOOD RULE FILIPINOS

Weeks Explains Need of Best
Talent for Position.

WASHINGTON, Aug. 16.—The Senate today passed a bill making it possible for the President to appoint Major-General Leonard Wood Governor-General of the Philippine Islands.

Chairman Wadsworth of the Military Committee explained that Secretary Weeks considered it important that the laws should be amended so as to make any officers on the active list eligible to appointment to civil office in the territorial possessions. He added that Gen. Wood's tour in the Philippines had developed that "the situation is such as to constitute a serious condition of affairs, one requiring the best talent and experience that the country can produce," and that Gen. Wood, at considerable personal sacrifice, had agreed to accept the governorship.

EXCHANGE PARLEY IS SOUGHT.

WASHINGTON, Aug. 16.—A joint resolution authorizing the President to call a conference of the leading mercantile houses to consider means of stabilizing international exchange was introduced today by Senator King (Dem.), Utah. The conference also would take up the question of establishing international clearing houses at New York and London.

UNEMPLOYED IN U. S. DOWN TO 5,735,000

Secretary Davis Reports for
July a Betterment Over
Conditions in June.

Special Despatch to THE NEW YORK HERALD.

New York Herald Bureau.
Washington, D. C., Aug. 16.
Approximately 5,735,000 persons are out of employment in the United States, according to an estimate sent to the Senate today by Secretary of Labor Davis. The figures are for July and they show a slight improvement over conditions as reported in June.

The information was sought in a resolution introduced by Senator McGarrick (Ill.), and Secretary Davis explained that they could not be accepted as absolutely accurate, but were the best obtainable. They were arrived at by comparing employment conditions of today with those at the peak of employment in 1920.

Attention was invited to the fact that an improvement in the number of persons on payrolls throughout the country had been shown by the reports for July when compared with those of June. This increase amounted to 1 per cent., but it was taken to indicate the turn of the tide for better conditions generally, the forerunner of a return to something more like normal conditions.

The building trades, it was indicated, suffered greatly in unemployment, although manufacturing industries followed closely in the highest percentage of unemployed. It was estimated that these groups alone have unemployment to the extent of approximately 3,000,000 men. The expected building boom did not materialize, although prices of some materials had declined sharply.

Secretary Davis said further that there was notable unemployment in mining, transportation and merchandising. It was announced also that numerous clerks were out of employment, as well as servants in large numbers.

One section of the resolution asked regarding the number of military service men out of work, but Secretary Davis replied that he could not supply detailed information or even estimates.

FAILS AGAIN AT SUICIDE.

Printer Revived After Taking Gas
Second Time.

William Nash, 42, a printer, of 45 Lombardy street, Brooklyn, inhaled gas for the second time in three days yesterday and was again revived. His wife, Evelyn, saw him in a chair with a gas tube in his mouth and ran to the street, where she got Patrolman John Dombrowski of the Herbert street station, who restored Nash with first aid.

Dr. Whelan, of Greenpoint Hospital, who revived Nash Sunday, said the patrolman had saved Nash's life.
